

Calculating Weighted GPA on a 4-Point Scale

Occasionally a college or academic program will ask for a student's GPA on a weighted 4-point scale. Westlake High School does not calculate the GPA on a 4-point scale, weighted or unweighted. You may easily calculate your weighted GPA by following the directions below:

Use the grades posted on the transcript. Assign each grade the following points:

Grade on WHS' 100-point scale	Grade on a 4-point scale Regular Level	Grade on a 4-point scale Pre-AP Level	Grade on a 4-point scale AP Level
90-100	4	$4 \times 1.1 = 4.4$	$4 \times 1.2 = 4.8$
80-89	3	$3 \times 1.1 = 3.3$	$3 \times 1.2 = 3.6$
75-79	2	$2 \times 1.1 = 2.2$	$2 \times 1.2 = 2.4$
70-74	1	$1 \times 1.1 = 1.1$	$1 \times 1.2 = 1.2$

$X = 1.1$
 $Y = 1.2$

Please remember that courses earned in the following ways outside of the normal high school day are **not included** when calculating GPA:

- Middle school ("J" after the course on the transcript)
- Summer school ("R" after the course on the transcript)
- Correspondence ("C" after the course on the transcript)
- Credit-by-Exam ("T" or "E" after the course on the transcript)
- Dual Enrollment ("D" after the course on the transcript)

Example of a Weighted GPA on a 4-Point Scale

Course	Grade	Conversion
English II Pre-AP	88	3.3
Algebra II Pre-AP	90	4.4
Chemistry	92	4.0
AP World History	86	3.6
Tennis	97	4.0
Latin III Pre-AP	94	4.4
TOTAL	547	23.7

547 divided by 6 (# of grades) = **91.17 GPA** (100-point scale unweighted)
 23.7 divided by 6 (# of grades) = **3.95 GPA** (4-point scale weighted)
